

2

Profile page — current wireframe · mobile (owner) + desktop (public)

- ✓

Email dropped from every screen — handled by another feature
- ✓

Teams are now multi — a player can list several clubs; activity shows which team
- ✓

Pompfen — owner picks from the full set (filled = selected, dotted = available); public shows only the selected

2a

Stacked feed — refined

Stacked feed

Identity → teams → pompfen → badges → activity, in one scroll. No email anywhere; the “Teams” section lists every club a player belongs to (joining/creating handled elsewhere).

Public view: no email · only selected pompfen shown · each activity item notes its team.

Try next: “build 2a as a hi-fi mobile screen” · “show the edit screen — teams + pompfen multi-select” · “design the desktop public page in detail”
